Melting equipment

	Equipment model：BF-GB4
	Equipment voltage:380V
	Power:35kw
	maximum temperature:2600C
	size:1760x720x1200

This is our metal melting machine, which is melted in a vacuum environment, resulting in high density of the finished product. It also features a vacuum secondary feeding function to prevent metal oxidation.For more product details, click aibaofeng.com to learn more!
